Dr. Viktor Hamburger
740 Trinity Avenue
Saint Louis, MO 63130

Dear Dr. Hamburger:

Hazel Sive has sent me copies of your translations of Johannes Holtfreter's two articles on differentiation of the urodele and anuran gastrula, which will be included in the Holtfreter memorial issue of *Developmental Dynamics*. All of us are delighted to be working with you again, and on such an historically important collection of research.

In order to obtain the necessary permission and copyright clearance to publish the translations and accompanying figures (photographs), I will write to the publisher of *Roux's Archives of Developmental Biology*, Springer-Verlag in Heidelberg. I do not anticipate any difficulty in obtaining permission. It would help me very much both in obtaining permission and planning for the special issue of *Developmental Dynamics* to have a photocopy of the original German articles. Can you (or perhaps Josh Sanes) send me copies of the two articles? Thank you.

Please feel free to call upon me at any time if I can be of further assistance.

Sincerely yours,

WFCurtis
