DEPARTMENT OF BIOLOGY

Sept. 15-1941

Dear Dr. Hamburger:-

Just returned from short vacation to find your three reprints which I appreciate very much. Your work is so thorough and so significant that I am put to shame every time I get one of your papers.

Sorry to have missed you at Woods Hole, but will be back next summer.

Sincerely

Ruth-

P.S. In the "Introduction" to the manual I have suggested several procedures as basic, to be followed by individual assignments. Should you try any of these and find discrepancies or suggestions for improvement, I would appreciate your help.

R.R.
