Figure S1. Biomass removed in each year from fertilized and unfertilized removal treatments between 1997 and 2007. Removal treatment abbreviation: B = removal of Betula nana, L = removal of Ledum palustre, M = removal of all mosses, MBL = combined removal of Betula nana, Ledum palustre, and all mosses. An F following the removal treatment abbreviation indicates that the removal treatment was fertilized. Error bars indicate 1 SE among blocks (n=6).
