Dear Trink,

Thank you very much for your letter of 8th January. Do not worry, we also thought that Albert Harris was pretty essential. Incidentally the other participants invited from the U.S. are Weston, Zigmond, Armstrong, Steinberg and Wessells. The British participants other than ourselves are Heaysman and Pegrum, Bray, Heath, Middleton, Wolpert, Partridge, Tickle, Edwards, Lackie, and R. Weiss. Ebendal and the Stephensons have also been invited. Most of these have already replied accepting the invitation. I am sure you will survive till 1982 - indeed you had better do so! However the happy casualness of your first paragraph should be replaced by rather more precise thinking because you are asked to contribute your chapter well before 1982; in fact by late 1980 so that the book will be published in time.

Thanks for the note about the Gordon Conference. I already know that Goldman and Graham will be talking which sounds good. Can you please arrange for someone to send me registration forms?

Yours sincerely,

Adam Curtis

Having much fun with M-2 and
addition.
