Dr. Trinkhaus  
Professor of Embryology  
Biology Department  
Yale University  
New Haven, Connecticut

Dear Dr. Trinkhaus:

Will you excuse this utterly improper  
business communique, and consider  
a request?

Inasmuch as the NSF Institute did not come through with a copy of your freshman biology course syllabus as promised, I am writing to ask if you could kindly forward one copy of the one you showed us at Williams College. I would be glad to borrow, buy, or beg it, if you can spare a copy.

I look back on your lectures as the most stimulating of the summer - and I am still swooning at your rich wit!

Thank you, Doctor, for your kind attention to my request.

Sincerely yours,  
Lester M. Stanislaus
