MARDI GRAS ATMOSPHERE GREETS CAPTAIN MICHAEL PALMIERI AND CHAIN CREW ON ARRIVAL— ALL SAY THANKS FOR THE SPECIALLY WARM HOMECOMING

Honoring a great ship and a great tradition, W.H.O.I. staff members numbering in the hundreds watched R/V CHAIN come into view at noon Saturday, Nov. 20, after 599 days at sea. Flares burst, cannons roared, banners waved, music from shore and from the Marching Society Band aboard LA CHANCEUSE greeted the crew and captain, while folk dancers appropriately costumed and representing nationalities from all parts of the globe danced welcome on Iselin Pier. The sun shone, children joined the dancers, everyone smiled, dogs wandered through the crowds, and the special day seemed suffused with happiness.

Since the events were well covered by W.H.O.I. film and camera bugs, it has been suggested that we put all the pictures together with the help of Graphic Arts show CHAIN's return at a meeting of the Peanut Butter Club. Then those who may have missed this "happening" can have a chance to see some of the high points.

Special kudos are in order to Charlie Innis, the folk dancers, the other members of the Welcoming Committee who turned this into a memorable fete. And special kudos should certainly be in order to those W.H.O.I. crew members who were aboard the CHAIN for all of her 22 scientific legs: John Mahoney, watchstander, Bill Clarkin, boatswain, and Alfred Roderick, oiler. Congratulations to all of the 113 members of the scientific teams and to the crew who made this 20-month round-the-world journey into a "fair adventure".

CHRISTMAS CARDS

Two years ago, Ruth and I decided not to send Christmas cards to members of the Institution community, and instead made a financial contribution to the Joseph Orr Fund. The idea was a popular one, and all together the Institution made a very nice Christmas gift to the Orr family, which was greatly appreciated. Many said they liked this way of recognizing the spirit of Christmas. Once again this year the Fyes plan not to send cards within the Institution. We will instead make a contribution of the amount of money which would otherwise have been spent in support of the Woods Hole Community Hall. In view of the fact that we do see each other fairly frequently and can say a "Merry Christmas" in person, we think this is a better way to extend the season's best wishes.

The Community Hall (which is owned by the Community Association) is widely used by people connected with the Institution. The Teen Center, the Penzance Players, the folk dancing group, the Woods Hole Child Center, the Woods Hole Library and others have been welcome guests in the Hall. There have been unusually high maintenance expenses in the last several years, as the building has been given some much-needed refurbishing. We think that a donation to the Community Association is particularly appropriate this year, both in terms of their needs and in terms of helping to support a local charity. Contributions can be made by mail to the Woods Hole Community Association, Box 327, Woods Hole, or in person to Mrs. Sandy Williams (Redfield 1-34), or to your group secretary. We suggest that others within the Institution might wish to join us in this expression of Christmas giving.

We hope to see all of you at the Institution's Christmas party on December 22 and wish you all a very Merry Christmas and a wonderful New Year.

Paul and Ruth Fye

UNITED FUND

The yearly United Fund has been under way since early October and the report of November 30, 1971, shows that 192 people have given this year a total of \$5876.10 which is far below what was given last year. The Institution is not only about 30% below in the number of people giving but also in the total amount collected or pledged. As Bump said in his letter "So far as I know there is no FREEZE on giving."

The percentage giving this year has only reached 32% out of our 600 people, whereas last year it reached roughly 75%. Remember those agencies that are supported by your giving to the UF and that this money is used here on the Cape to help the ones that need it. The easiest way to give is by using the pledge card and have your gift through payroll deduction. Since the Institution is the largest employer other than the government, let it become the biggest giver in the United Fund.

W.H.O.I. CHRISTMAS PARTY

Plans for this year's annual Christmas festivities are getting off the ground, according to Bob Frazel, W.H.O.I.'s 1971 Party Chairman. A seventeen piece band will provide music for everyone's pleasure -- from acid rock to the band styles of the '30's and '40's Wednesday night, December 22. The party will be in the MBL Dining Room beginning at 8:00, lasting until midnight.

A hot and cold buffet will be served throughout the evening. Tickets are \$2.00 per employee or \$4.00 for employee and guest. Dress is semi-formal for the men and the ladies have their choice in fantasy, formal length or what takes their fancy for the evening.

HEART ATTACK AT 110 FEET

Last year, W.H.O.I.'s David Owen, working off the island of Cuttyhunk, was performing his normal work as a diver when he experienced a heart attack. At first he was not aware of what had happened and was only slightly concerned. Upon later examination by his physician, however, it was confirmed that he had had an attack while diving. While recuperating, Dave pondered over the incident and wondered if other divers had had similar experiences and perhaps did not know of the dangers and "coast" through a similar happening without seeking medical attention.

Dave wrote up his experience and submitted it to True Magazine. His story was published in 1970. The November issue of Skin Diver has now published his article on his attack, giving it one of the top billings. It is hoped that other divers upon noticing similar conditions will seek medical advice and possibly avert some disaster either to themselves or to others that might be diving with them. The article will be read by non-divers as well as divers, who might likewise be helped by reading this piece.

WATERCOLOR PAINTINGS

A few months ago, one of the Institution's Trustees, Mr. Melvin Conant, gave us a collection of watercolor paintings of clipper ships and research vessels. Some day it would be nice to hang these all together in one collection, and we hope to do this in the new buildings at the Quissett Campus. In the meantime, these paintings are available on loan to staff members who would like to have one hanging in their office.

The paintings are in the Document Library if you would like to look at them and perhaps to borrow one. Please see Cecelia Fuglister.

TELEPHONE CHANGES

The moving to the new DESC building by many of the staff has caused some confusion in telephone calls when trying to call these people. The Newsletter would like to help all to find the right numbers for the right people. Don't forget to dial 9 first to get outside.

R/V KNORR INTERNATIONAL SOCCER TEAM

Reading left to right, front row: "Frenchy" La Porte, "Buddy" Whitehouse, Captain, Bill Macomber, Don Karl. Back row: John Martin, Alden "Cookie" Cooke, Joe Landrigan, David "Twilight" White, Bob Stewart, & Harry "The Greek" Rougas.

W.H.O.I.'s R/V KNORR international soccer team successfully held the team from the Italian Navy Submarine DaVINCI to a tie 3 to 3 game at the Italian Navy Base in Augusta, Sicily on November 11, diligently performing against the more experienced Europeans. Ably lead by captain, "Buddy" Whitehouse, the stars of the KNORR team were as follows: Joe Landrigan, 3rd mate, left wing; Don Karl, science, inside left; "Frenchy" LaPorte, AB, center forward; Bob Stewart, science, inside right; John Martin, deck eng., right wing; Bill Macomber, 3rd eng., left half; "Buddy" Whitehouse, ord., center half; Alden "Cookie" Cooke, radio operator, right half; David "Twilight" White, messman, left fullback; and Harry "The Greek" Rougas, electrician, right fullback.

The KNORR team was short one man and the Italians graciously gave their best goal tender and three good substitutes. Reports say that the occasion was very jolly, with beer and soda pop consumed during the half "in order for our boys to get their second wind."

The commander of the Italian Submarine presented the KNORR team with a plaque which will be hung in the ship's library.

With the confidence gained from their Sicilian match, the KNORR team is looking forward for more keen competition in Augusta and Malaga, Spain. Cheers for the KNORR team are certainly deserved.
