Bahnstation: Starnberg (Obb.)

Prof. Dr. V. Hamburger,
Washington University,
St. Louis, Miss. 63130
Dept. of Biology

Dear Dr. Hamburger,

I just returned from an expedition to New-Guinea and found your kind letter and interesting paper. I am very happy, indeed, to have received it and will show it also to Prof. Lorenz.

In the meantime my textbook

Grundriß der vergleichenden Verhaltensforschung came out at Piper Verlag, München, in which I quoted your recent papers in detail.

With my kindest regards and best wishes for Merry Christmas, I remain yours very sincerely,

I. Eibl-Eibesfeldt
