Dr. Viktor Hamburger
Department of Biology
Washington University
St. Louis, Missouri 63130

Dear Dr. Hamburger,

I am very glad to have met you at Woods Hole this past summer, and thank you for presenting such an informative and enjoyable lecture! The references you gave me (to Bijtel's work on the posterior neural plate) were very helpful, and I'm looking forward to seeing your book.

You mentioned that you had some of Dr. Holtfreter's pictures. If it is at all possible, I would greatly enjoy seeing them. If they can be photographed or photocopied, I would be willing to pay (if it isn't too expensive); if you can send the originals, I would be certain to return them. Needless to say, there is no urgency in this request.

Thank you again for coming to Woods Hole, and best wishes for the new year.

Sincerely,

Scott F. Gilbert
