L. V. Worthington
- November 21 - Geology & Geologic Problems of the Caribbean
Professor Ely Mencher
Massachusetts Institute of Technology
- November 28 - TRANSIT Satellite Navigation System
Dr. R. B. Kershner
Johns Hopkins University

Bio-Chem Luncheon - Wednesday Noons - Conference Room - L.O Lobby

WANDERINGS:

Dr. Fye visited Washington, D. C., last week and met with Vice Admiral John T. Hayward, Deputy Chief of Naval Operations; Rear Admiral R. K. James, Chief, Bureau of Ships; Rear Admiral Paul D. Stroop, Chief, Bureau of Naval Weapons and Rear Admiral Rawson Bennett, Chief, Office of Naval Research.

Lloyd D. Hoadley, a member of the Hersey group, plans to leave for Monaco this week to observe sea trials of a new boat which is being developed by the french oceanographers. Lloyd expects to be there for approximately two weeks.

Dr. Hersey will deliver a speech to Princeton Section, The Institute of Radio Engineers, RCA, Somerville, New Jersey, on Thursday of this week.

Frank Mather is completing plans for an exploratory fishing cruise and will endeavor to complete the year-round seasonal cycle of the distribution of tuna and other large oceanic fishes in the off-shore areas. However, the R/V CRAWFORD developed clutch trouble which has caused a delay in the scheduled sailing of the ship.

Howard Sanders is spending this week in Miami on business.

Dr. John H. Ryther returned on Monday of this week from a week's trip which took him to Seattle and San Francisco.

The Max McLean family went on a "safari" last week-end which took them through the White Mountains and over to the coast of Maine. The trip was made in the converted school bus in which they made a 7200 mile trip to the West Coast last summer.

Stanley and Winifred Eldridge recently returned from a two weeks' vacation which was spent touring the New England area.

NEW EMPLOYEES

Mr. Jess H. Stanbrough, Jr., Executive Secretary for the Undersea Warfare Research and Development Planning Council has arrived and is located in the Main Office, Room 112. Telephone Extension No. 214.

Russell G. Graham, 133 Gifford Street, Falmouth, has been employed as warehouse supervisor at the Blake building to replace Bruce Oparowski who terminated his services with the Institution some weeks ago.

Mary Turner, wife of Hal Turner, has been re-employed by the Institution and is working with the Fuglister group.

FELLOWSHIP

Conrad Neumann has been granted an American Chemical Society Fellowship in Geology at Lehigh University for the 1960-61 academic year.

PLANKTON COLLECTION

George Grice has received the first systematic collection of plankton from beneath the Arctic ice which was collected by the nuclear submarine SEADRAGON.

MARINE NEWS

The R/V ATLANTIS returned from St. George's, Bermuda on Tuesday and was required to proceed via New Bedford for clearance through Customs.

The BEAR got under way Wednesday afternoon for the tongue of the ocean survey in the Bahamas.

Much activity is taking place on the dock in preparation for the arrival of the CHAIN on Saturday.

Martin Bartlett will participate in the forthcoming CRAWFORD cruise as a technical assistant to Frank Mather, rather than in his usual capacity as 2nd mate.

COAST GUARD UNIT

James A. Senefelder of Buffalo, New York has joined the Coast Guard Oceanographic Unit as an oceanographic technician. He is making his home in Falmouth for the present.

REMINDER to people making long-distance telephone calls to use the memo pads which are provided for reporting calls to Rosemary. These pads may be obtained from the receptionist at desk in L.O. Lobby.

PARKING SPACE REMINDER

At this season of the year adequate space for parking is available on the Dyer's Dock and School and Water Streets lots. The spaces provided for parking adjacent to the Laboratory of Oceanography are a convenience which can be maintained only if the access to the receiving room is not blocked. The cooperation of everyone using the L.O. is necessary to insure that delays in delivery of materials and equipment do not occur.

RE-LOCATION OF PERSONNEL

From WHOI to Blake Building:

Bill Dunkle
Sloat Hodgson
Ann & Andy Nalwalk

Dick Pratt
Tom Stetson
Geoffrey Whitney

From Challenger House to Blake Building

Jane Broughton
Betty Bunce
